

Louvre Panel

Jacksons Fencing

Louvre panels offer a sleek appearance suited to contemporary gardens. The horizontal slats are made from planed and shaped Jakcure® treated timber, secured to create an angle - reminiscent of louvre blinds - unlike the straight sided slats of our Venetian Panels. The slats are also larger which gives greater privacy than Venetian - yet still let in light and offer less wind resistance than solid panels, like Chilham or Tongue and Groove Effect panels.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Designed for use with slotted Jakposts®.
- Larger slats to offer greater privacy.
- The Louvre semi-solid design allows some wind to pass through - less wind resistance, stronger fence.
- Gravel boards are required where panels are in contact with the ground.

Specification

Panel Heights: 0.91m 1.22m 1.52m 1.83m

Panel Width: 1.83m

Rails: Top/bottom Rails - 70 x 51mm.

Pales: 70 x 18mm.

Panel Thickness: 51mm

The panels can be cut to width on site with the original side batten being re-used in the new position.

Gates

Our Louvre Panel does not have matching gates, but other gate types can be recommended to suit.

- Gate specifications will depend on the alternative style of gate chosen.

Standard Gate Heights: N/A

Standard Gate Widths: N/A

View our website for Q40 specification documents, CAD drawings and products available to buy online.

A fully made to measure service is available. All Jacksons Fencing systems and gates may be designed and manufactured to suit site conditions.

Note that components can temporarily swell up to 6% in width after our Jakcure® process temporarily affecting the overall product dimensions.
