

Shadowline Panel

Jacksons Fencing

Built with architectural cladding in mind, our Shadowline Panel has a modern unique profile which provides a dynamic central shadow gap between each board, free of any visible fixings, to provide a seamless contemporary finish. These contemporary panels offer you the option to install a solid privacy style fence with no lines of sight through the panel which creates a clear shadow line between each board.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Designed for use with slotted Jakposts®.
- Panels are stacked to give extra height. (Eg. Two 0.91m panels on top of each other to create a 1.80m approx high panel).
- Offers a modern and contemporary clad design using unique 'Z' boards.
- All fixings are through the back of the panel making the front free of any visible fixings.
- Gravel boards are required where panels are in contact with the ground.

Specification

Panel Heights: 0.66m 0.91m

Panel Width: 1.83m

Rails: 4 qty 70mm x 24mm back rails.

Thickness: 50mm
