

Tongue and Groove Horizontal

Jacksons Fencing

Tongue and Groove Effect Horizontal panels are a mainstay of our premium panels range. They feature a mortice and tenon jointed frame for extra strength while the infill is constructed using Tongue and Groove Effect boards in a horizontal direction.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Designed for use with slotted Jakposts®.
- Panels have a morticed and tenoned frame for extra strength.
- All timber is planed all round.
- Panel is given additional support with one or two 70mm wide rails depending on the fence height.
- Gravel boards are required where panels are in contact with the ground.

Specification

Panel Heights: 0.91m 1.22m 1.52m 1.65m 1.83m

Panel Width: 1.83m

Framing: 51mm top and bottom rail and 45mm side rails.

Panel thickness: 51mm.

If you need to reduce the width of a panel on site, a cut down kit is available. Always use Jakcure® End Grain Treatment on any cut timber.

Gates

Gates are Jakcure® treated softwood, right and left hand hanging (when viewed from the outside) but are made to order. They are designed to match our Tongue and Groove Horizontal.

- Gate specifications will depend on the alternative style of gate chosen.
- Galvanised ring latch and adjustable hook and band hinges are included.
- All fixings and fittings are hot-dip galvanised or stainless steel.
- Wall plates are available for fitting these gates to walls.

Standard Gate Heights: 1.78m (including capping).

Standard Gate Widths: 1m

View our website for Q40 specification documents, CAD drawings and products available to buy online.

A fully made to measure service is available. All Jacksons Fencing systems and gates may be designed and manufactured to suit site conditions.

Note that components can temporarily swell up to 6% in width after our Jakcure® process temporarily affecting the overall product dimensions.
